Profiles are manufactured exclusively using finest quality aluminium. Impeccably brilliant, ultra durable paint finishes are produced with state-of-the-art technology and epoxy polyester powders. To guarantee perfect results, surfaces are cleaned, degreased and chrome-treated prior to painting. All components and fixings have been studied and made of the most suitable materials to guarantee long-lasting enclosures (stainless steel, teflon, nylon and ABS).

I profili sono realizzati esclusivamente con alluminio di altissima qualità. La verniciatura, perfetta, brillante, inattaccabile è realizzata in impianti modernissimi con polveri epossipoliesteri. La verniciatura a garanzia di un risultato ineccepibile, è preceduta da pretrattamenti di lavaggio, degrassaggio e cromatazione. Tutti gli elementi di fissaggio e di raccordo sono studiati e realizzati nei materiali più adatti per garantire la durata e inalterabilità delle cabine (acciaio inox, efon, nylon e ABS).

Les profilés sont tous réalisés en aluminium de toute première qualité. Le vernissage, brillant, inattaquable, est obtenu grâce à des installations ultra modernes qui utilisent des poudres époxypolyesters. Garantie d'un résultat irréprochable, ce vernissage est précédé de plusieurs traitements: lavage, dégraissage et chromage. Tous les éléments de fixation et d'assemblage ont été conçus et réalisés dans les matériaux les plus appropriés afin d'assurer la durée et l'inaltérabilité des cabines (acier inox, téflon, nylon et ABS).

Los perfiles están realizados exclusivamente con aluminio de altísima calidad. El barnizado, perfecto, brillante, inatacable, está realizado en plantas modernísimas con polvo epoxipoliéster. El barnizado, para garantizar un resultado perfecto, está precedido por pretratamientos de lavado, desengrasado y cromado. Todos los elementos de sujeción y ensamblaje están estudiados y realizados con los materiales más adecuados para garantizar la duración e inalterabilidad de las cabinas (acero inoxidable, teflón, nylon y ABS).

Die Profile werden ausschließlich aus qualitativ hochwertigem Aluminium hergestellt. Die perfekte, glänzende und unverwüsthliche Lackierung wird in modernsten Anlagen auf Epoxydharz-polyesterbasis ausgeführt. Der Lackierung als Garantie für ein einwandfreies Ergebnis geht eine Vorbehandlung voran: waschen, entfetten und verchromen. All shower enclosures are produced exclusively from horizontally toughened safety glass. This technologically advanced system guarantees the highest safety standards available today.

Tutte le cabine sono prodotte esclusivamente con vetri trattati con sistema di tempera in piano che garantisce il più alto grado di sicurezza tecnologica-mente oggi raggiungibile.

Toutes nos cabines sont équipées de verres ayant subi un trempage à plat assurant la plus haute sécurité actuellement réalisable sur le plan technologique.

Todas las cabinas están fabricadas exclusivamente con vidrios tratados con sistema de templado en plano que garantiza el grado de seguridad más alto tecnológicamente alcanzable en la actualidad.

Alle Duschkabinen sind ausschließlich aus flachgehärtetem Sicherheitsglas hergestellt zur Gewährleistung des höchsten Grades an heute technisch erreichbarer Sicherheit.
